

Introduce Your Organization to Enterprise 2.0

Clearvale Express is the free, simple enterprise social network that lives in the cloud. Built for the savvy business professional and offering some of the great and most essential core features of BroadVision Clearvale Enterprise, Clearvale Express allows you to quickly and easily create an enterprise social network, invite your colleagues, and collaborate via a genuine Enterprise 2.0 platform.

Create and share files, follow your colleagues' activities, and create communities for departments and project teams to work together like never before.

Key benefits and features include:

In the Cloud

Clearvale Express is based in the cloud, offering flexibility, agility and the ability to communicate and collaborate with your entire organization, without the need for installation or IT support.

Do it Yourself

Creating a Clearvale Express network is easy. In just a couple of minutes you can sign up, invite your colleagues, and start building your enterprise social network right away -- absolutely free.

MyStreams

Follow people, content and groups -- then manage, filter and personalize multiple data streams from one easy to use interface.

File Sharing

Create and share files, store them within Clearvale Express, track changes and versions, and control access and permissions at all levels, from network to communities to individual users.

Communities

Form groups around departments, projects, general interests, and more, enabling staff to share information and ideas with each other, partners, and customers.

Upgrade to Clearvale Enterprise

Clearvale Express is completely free. To take advantage of the entire suite of BroadVision® Clearvale™ features -- such as unlimited storage and communities, blogs, wikis, forums, RSS and social media feeds, API integration and more -- companies can upgrade to Clearvale Enterprise. With a unique and simple pricing model, Clearvale Enterprise makes it easy for you to build customized enterprise social networks for your company, customers and partners while paying only for those who actually use it.
